## ACCA (Association of Chartered Certified Accountants)

### ABOUT ACCA

Founded in 1904, the Association of Chartered Certified Accountants is the global professional accounting body offering the Chartered Certified Accountant qualification. It has 240,952 members and 541,930 future members worldwide. ACCA's headquarters are in London with principal administrative office in Glasgow.

The Association of Chartered Certified Accountants (ACCA) is the global body for accounting professionals and offers business-relevant, first-choice credentials to individuals with academic ability, application and ambition around the world who want to pursue rewarding careers in accountancy, finance, and management.

An ACCA certification gives you global exposure, recognition, and opportunities to excel in your chosen field.

With this credential, you can further effectively progress in your career from almost anywhere. The ACCA certification offers a **promising career** as well as lifetime experience, knowledge, networking, and support. When you choose to study with ACCA, you choose a future full of possibilities.

# Foundations in Accountancy (FIA) by ACCA

*Your first step towards becoming a Global Chartered Certified Accountant*

The Foundation in Accountancy (FIA) program allows students to **begin** their ACCA journey while still in school.

Foundations in Accountancy (FIA) qualifications are best suitable for a wide range of people especially School Students.

They're ideal if you are new to finance or aiming to switch to finance. You could also be already working in finance but have no formal qualifications. Or you might want to gain a better understanding of how finance works to progress your career.

By completing FIA, the student will have completed the first of three levels of the ACCA.

According to studies, students who join in ACCA at the foundation level have a good foundation in accountancy and Economics, which aids them in passing the ACCA exam on the first attempt and helping them to achieve high grades in school.

Students who begin ACCA through FIA early in school have the possibility to become fully qualified Chartered Accountants (ACCA) at a young age, perhaps even before graduating.
